Hey there! I'm Andreas Bilmar Harteveld Girsang, a tech graduate in information systems. Throughout my career as a software engineer, I've had the opportunity to work on a diverse range of exciting projects. My experience includes developing web applications that solve real-world problems, creating robust desktop applications, and designing custom Odoo applications that streamline business processes. I'm well-versed in various technologies, with strong skills in web development, database management using both SQL and NoSQL, and crafting innovative tech solutions.
